Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Lipovsky on June 21, 2005.

The following changes have been made to the subject application:

In claim 3, line 3, after "a pair of", deleted "asymmetric".

In claim 3, line 3, before "having", inserted --being asymmetric and--.

In claim 4, line 3, after "a pair of", deleted "asymmetric".

In claim 4, line 3, before "having", inserted --being asymmetric and--.

In claim 13, line 3, after "a pair of", deleted "asymmetric".

In claim 13, line 3, before "having", inserted --being asymmetric and--.

The Examiner's amendment has been made to clarify the claimed language in order to place the application in a condition for allowance.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach an antenna apparatus comprising a driver section having a pair of cones which each of the cones is asymmetric or at least one of the cone having a plurality of slope faces, and a beam shaper element having a specific beam shaper surface chosen to provide selected antenna operating characteristic and a conforming surface

Art Unit: 2821

that is disposed in substantial conformity with a crotch defined between the two cones as defined in claims 3-4, 7, 10-11, 13 and 23, or a beam shaper section having first and second beam shaper elements wherein the first bean shaper element substantially surrounds the second beam shaper element, each of the beam shaper elements having different dielectric properties as defined in claims 12. Therefore, claims 3-8 and 10-29 are presently allowed.

Any comments considered necessary by applicant must be submitted no latter than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inquiry

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trinh Vo Dinh whose telephone number is (571) 272-1821. The examiner can normally be reached on Monday to Friday from 9:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong, can be reached on (571) 272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access
